OASYS MAIL MANAGER 5.0 EARNS ACCREDITATION FROM INSTITUTE OF CHARTERED ACCOUNTANTS

Largest accountancy body in Europe describes Mail Manager as a “well designed and well specified” email management tool

London, England – November 17, 2009 – Oasys Limited, makers of high quality software products, today announced that its email management product, [Mail Manager 5.0](#), has earned accreditation from The Institute of Chartered Accountants in England and Wales (ICAEW), the largest professional accountancy body in Europe with 132,000 members.

Oasys Mail Manager is a plug-in for Microsoft Outlook that enables users to file, find and share emails easily. With Mail Manager, filing becomes a seamless and simple part of the email process rather than a task to do later, making it a user-friendly tool that provides cost and time savings for businesses, while enhancing team collaboration.

“Oasys Mail Manager 5.0 is a well designed and well specified email archiving software system, and has been sufficiently specified for its target market,” wrote Kevin Salter, FCA, CTA (Fellow), BBS Computing Ltd, who conducted the analysis of Mail Manager 5.0 on behalf of the ICAEW. “The software learns from each user’s behaviors and will suggest the most likely places to file a message, thereby greatly reducing time spent deciding and finding where to store them. It

has a fast and comprehensive search tool which, due to local caching of search indexes, works even when disconnected from the network and could therefore be beneficial to mobile workers.”

The ICAEW’s evaluation was conducted based on a set of criteria the Institute has developed to ensure that the software meets the requirements of good email archiving, including:

- Permitting the secondary storage of all email correspondence, including attachments, while maintaining seamless online access
- Permitting flexible searching and retrieval of data from the stored records
- Protecting data and ensuring that the email communication is available in its native format
- Retaining emails in accordance with the organization’s email compliance and email archiving policies
- Complying with legislative record retention and security requirements
- Being effectively supported and maintained to the latest standards and legislation

“The ICAEW recognizes that receiving and sending email is vital to business operations for many organizations and failure to manage it properly can lead to a number of problems – from wasted time to legal ramifications,” said Alec Milton, Managing Director, Oasys Limited. “We are proud to have received accreditation from an organization with the prestige of the ICAEW.”

Mail Manager 5.0, which includes support for BlackBerry handhelds, is currently available for download from the Oasys Limited web site at <http://www.oasys->

software.com/mailmanager, where additional information is included about Mail Manager and its features.

About Oasys Limited

Established in 1976, Oasys Limited has a long-standing reputation for providing high quality software and support. As the software house of Arup (a global organization of consulting engineers, planners and project managers working in all areas of the built environment, infrastructure, transportation, water, vehicle engineering, etc), Oasys is subject to the exacting demands of Arup engineers who require efficient, reliable and technically competent tools.
